

Cardboard s.r.o.

Otrokovice, July 10th 2026

Declaration of conformity of the packaging

heavy metal content, hazardous substances, material recycling

The company Obaly Morava, a.s. with the seat of cl. T. Bati 1700 in Otrokovice, ID 25252968

Declares

that the packaging materials and corrugated cardboard products supplied to it meet the requirements of Regulation (EC) 1935/2004 of the European Parliament and of the Council on materials and articles intended to come into contact with foodstuffs and Section 4 of Annex No. 12 to the Decree of the Ministry of Health of the Czech Republic No. 38/2001 Coll. on hygiene requirements for products intended to come into contact with foodstuffs and meals, as amended.

The declaration is supported by certificates No. 472118163-01, No. 472118165-01, from ITC Zlín accredited testing laboratory No. 1004. on the determination of extractable heavy metals (Pb, Cd, Cr (VI+), As, Hg) and sensory tests.

Packaging materials meet the general requirements set out in Article 3, paragraph 1c of Regulation (EC) No. 1935/2004 of the European Parliament and of the Council as amended and Decree of the Ministry of Health of the Czech Republic No. 38/2001 Coll. as amended - they do not exceed the values of heavy metals in the packaging material and do not affect the sensory properties of the products. 2) They do not contain hazardous substances and hazardous substances specified in European Community directives are not intentionally added for better functionality (PFAS, SVHC substances according to Article 33 of REACH 1907/2006, PFOS, RoHS).

The flexographic printing inks used in production are water-based and, according to their manufacturers' declarations, do not contain mineral oils or pigments and substances based on lead, hexavalent chromium, cadmium, mercury, arsenic or molybdenum compounds. Starch adhesives are used in the production of corrugated cardboard and water-soluble dispersion adhesives based on polyvinyl acetate (PVAc) are used in the production of cardboard products. The adhesives used are intended for the production of packaging and, according to their manufacturers' declarations, meet the requirements of applicable legal regulations for their intended use.

Substances classified as sensitizing according to Regulation (EC) No. 1272/2008 (CLP) are not intentionally used in production.

The products are manufactured from raw materials used, which, according to their suppliers' declarations, do not contain added mineral oils (MOSH and MOAH).

The raw materials used meet the requirements for limiting the concentration of lead, cadmium, mercury and hexavalent chromium according to Article 5 of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR).

Furthermore, Obaly Morava, a.s. declares that the corrugated cardboard packaging products produced by it meet the requirements of Directive 2025/40 of the European Parliament and of the EU on packaging and packaging waste and the requirements of Sections 3 and 4 of the Packaging Act 477/2001 Coll., as amended, according to the technical standards listed below:

- Material recyclability (ČSN EN 13430)
- Energy recovery (ČSN EN 13431)
- Hazardous substances (ČSN EN 13428, ČSN 770150-2)

The products are not suitable for composting.

Upon request, Obaly Morava, a. s. will submit to the supervisory authorities the relevant documentation on the basis of which opinions on individual points of the declaration were drawn up.
